

LAB RESOURCE UTILIZATION PLATFORM

Document 5 Workflow

Infosys Springboard Internship

1. Introduction

The workflow of the Lab Resource Utilization Platform describes the sequence of operations performed by different users from login to report generation. It ensures efficient and secure management of laboratory resources.

2. Overall Workflow

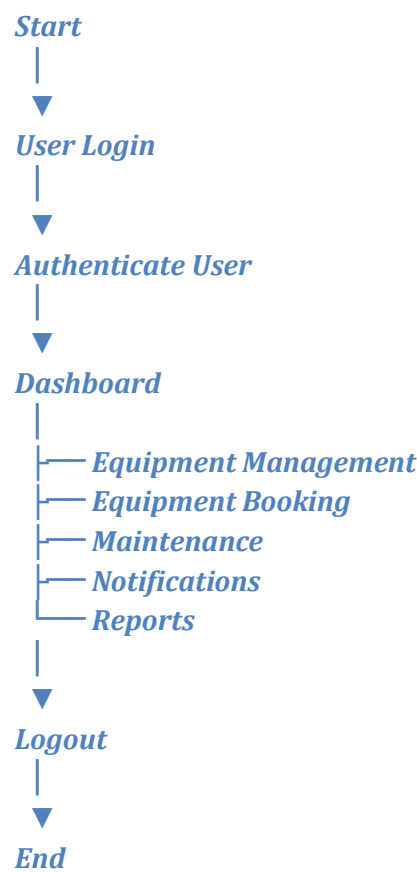

Figure 1: Overall Workflow of the Lab Resource Utilization Platform

3. Authentication Workflow

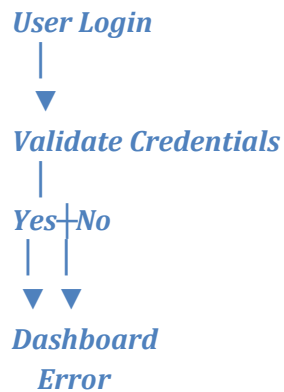

Figure 2: Authentication Workflow

4. Equipment Booking Workflow

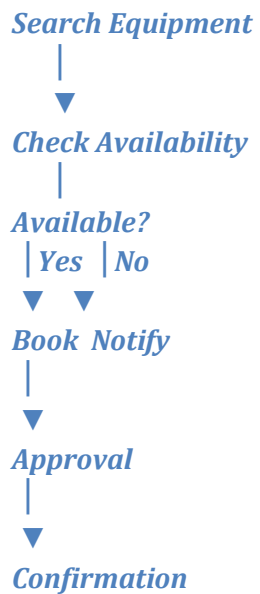

Figure 3: Equipment Booking Workflow

5. Maintenance Workflow

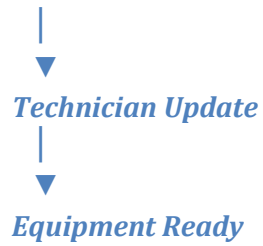

Figure 4: Maintenance Workflow

6. Report Generation Workflow

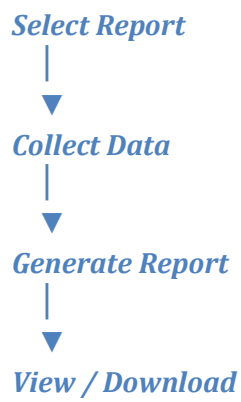

Figure 5: Report Generation Workflow

7. Conclusion

The workflow provides a structured process for authentication, booking, maintenance, utilization, and reporting, improving laboratory efficiency.
