

LAB RESOURCE UTILIZATION PLATFORM

Document 8
UI Design and Wireframes
Infosys Springboard Internship

1. Introduction

This document presents the UI design and wireframes for the Lab Resource Utilization Platform. Replace each placeholder with the corresponding UI mockup image.

Figure 1: Login Page

Description: Add a brief explanation of this screen and paste the corresponding UI image below.

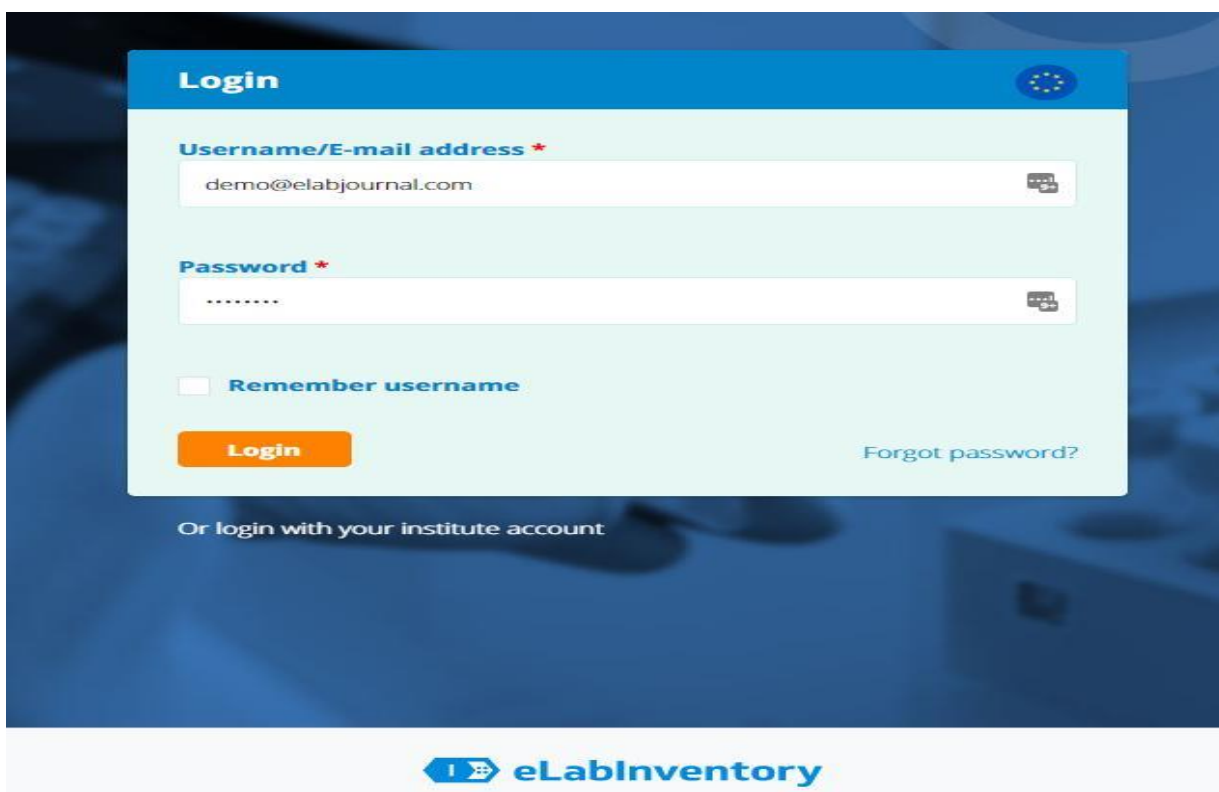

Figure 2: Admin Dashboard

Description: Add a brief explanation of this screen and paste the corresponding UI image below.

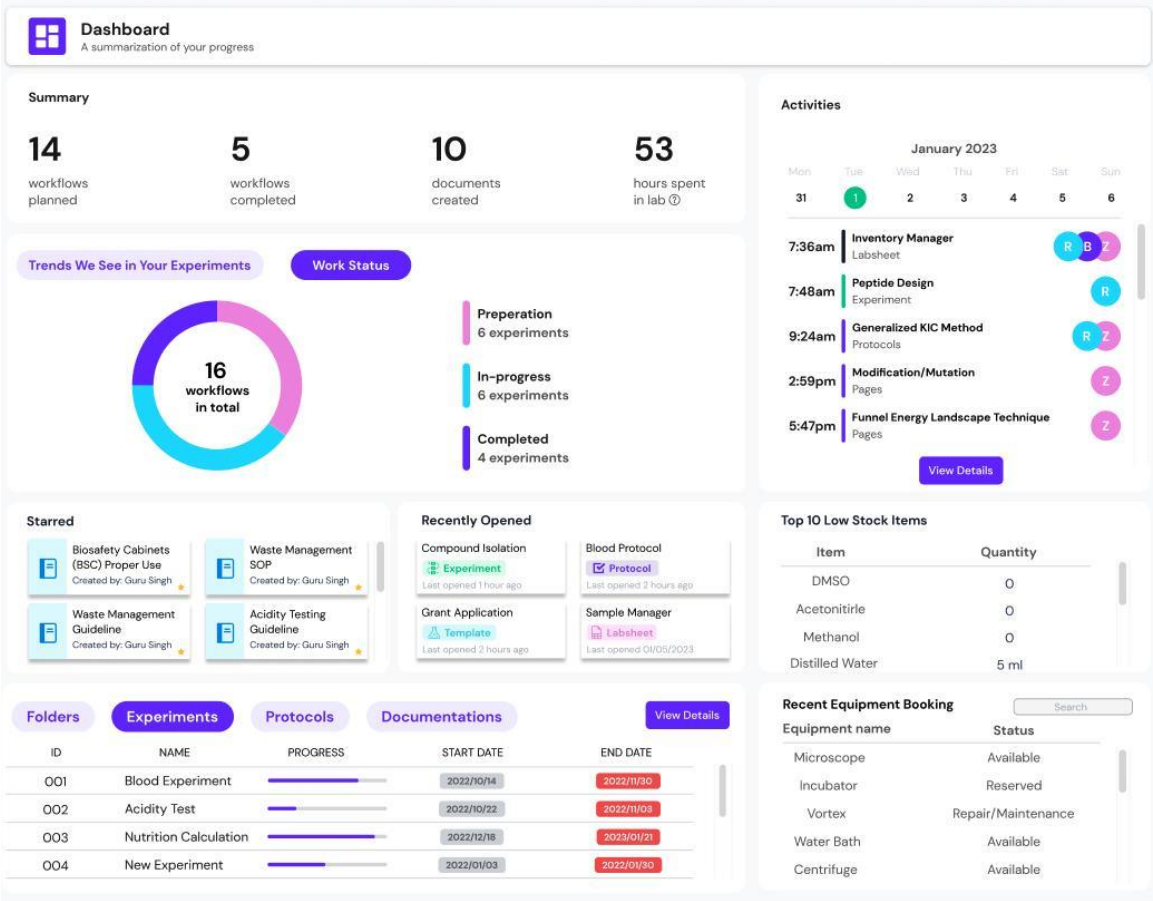

Figure 3: Equipment Management

Description: Add a brief explanation of this screen and paste the corresponding UI image below.

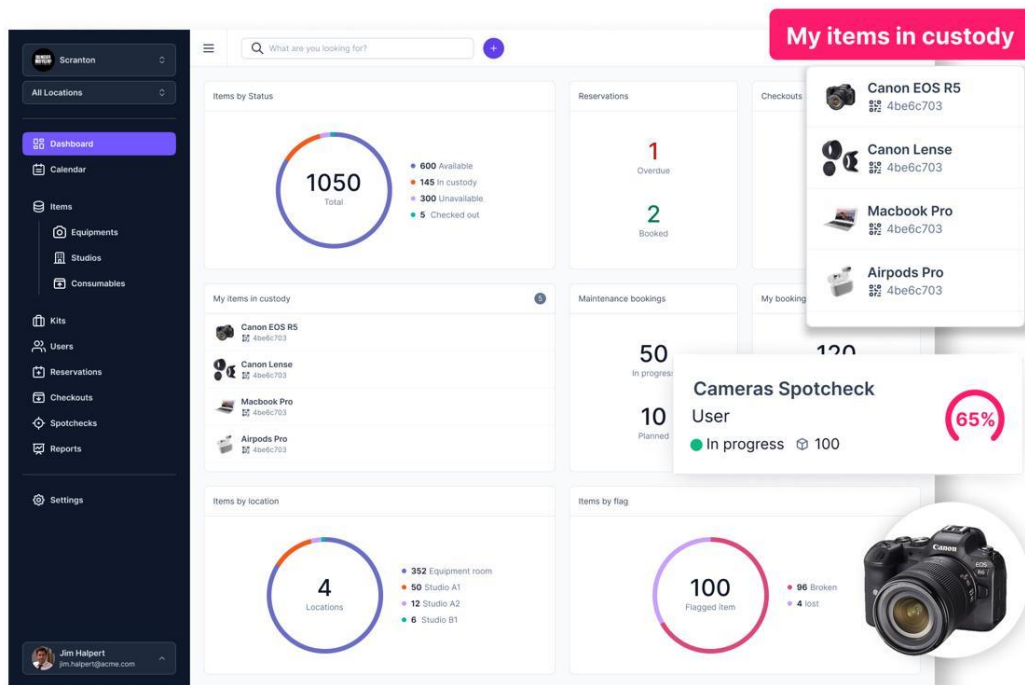

Figure 4: Equipment Booking

Description: Add a brief explanation of this screen and paste the corresponding UI image below.

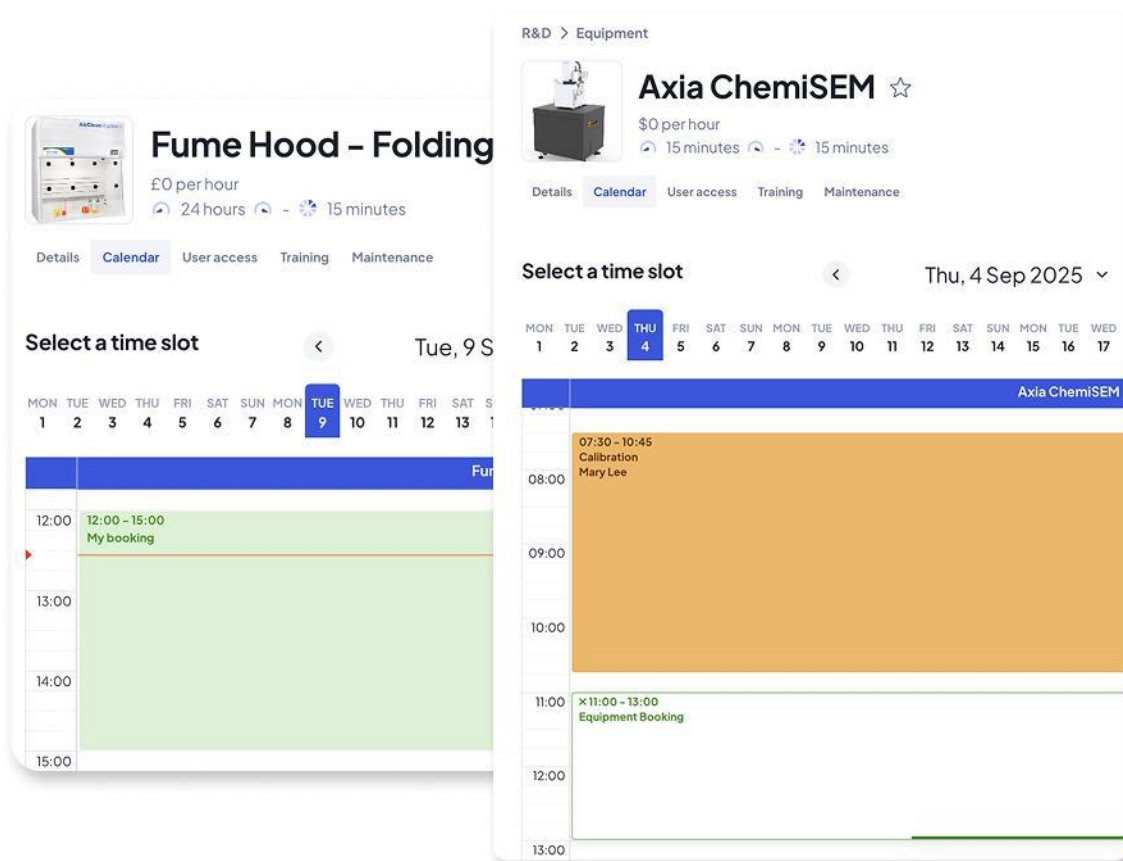

Figure 5: Maintenance Management

Description: Add a brief explanation of this screen and paste the corresponding UI image below.

Figure 6: Reports & Analytics

Description: Add a brief explanation of this screen and paste the corresponding UI image below.

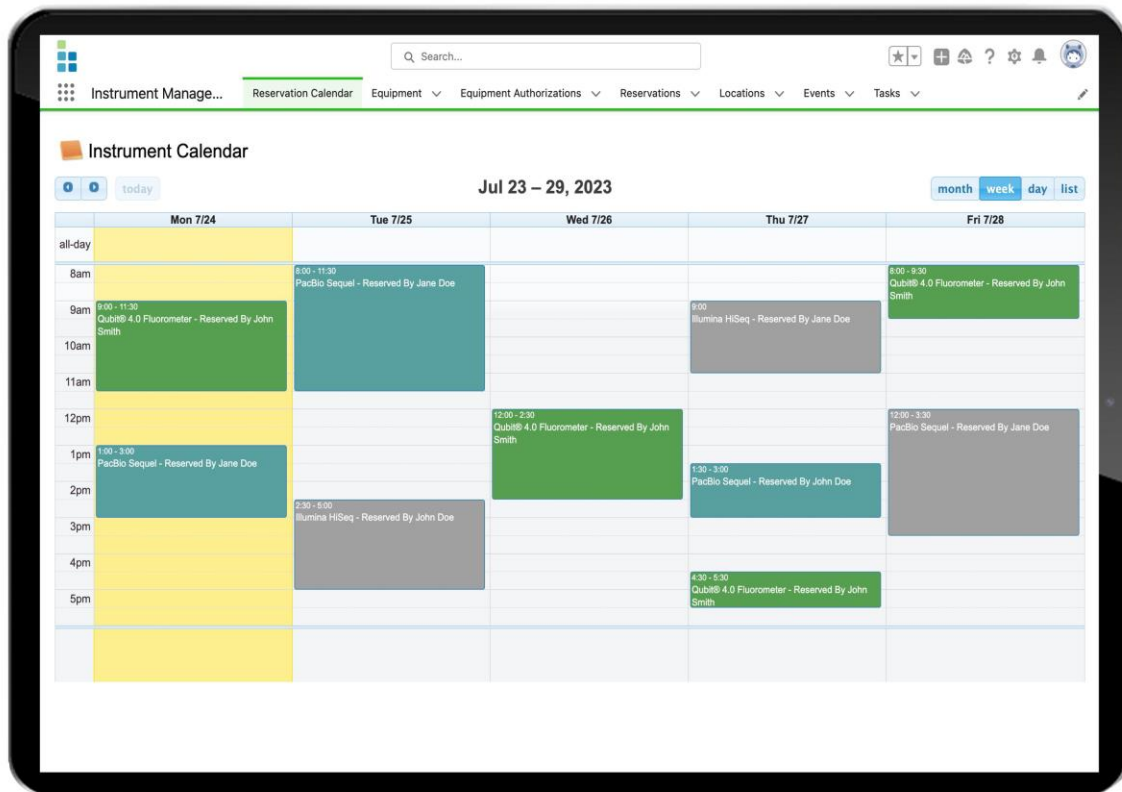

Figure 7: User Profile

Description: Add a brief explanation of this screen and paste the corresponding UI image below.

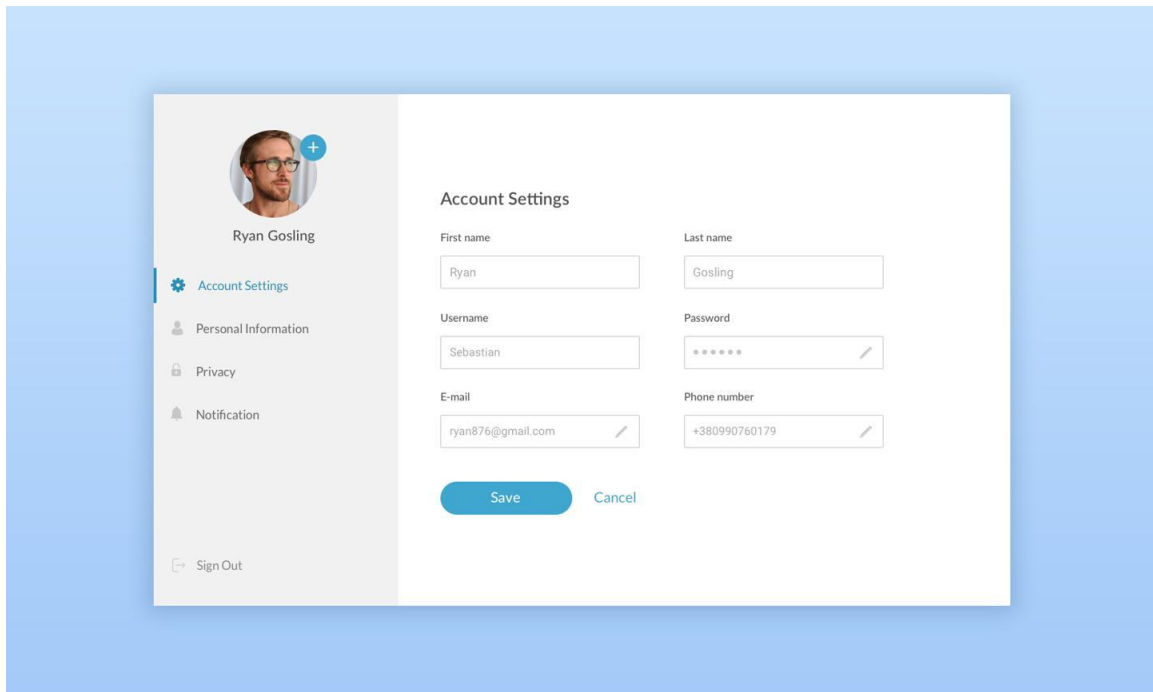

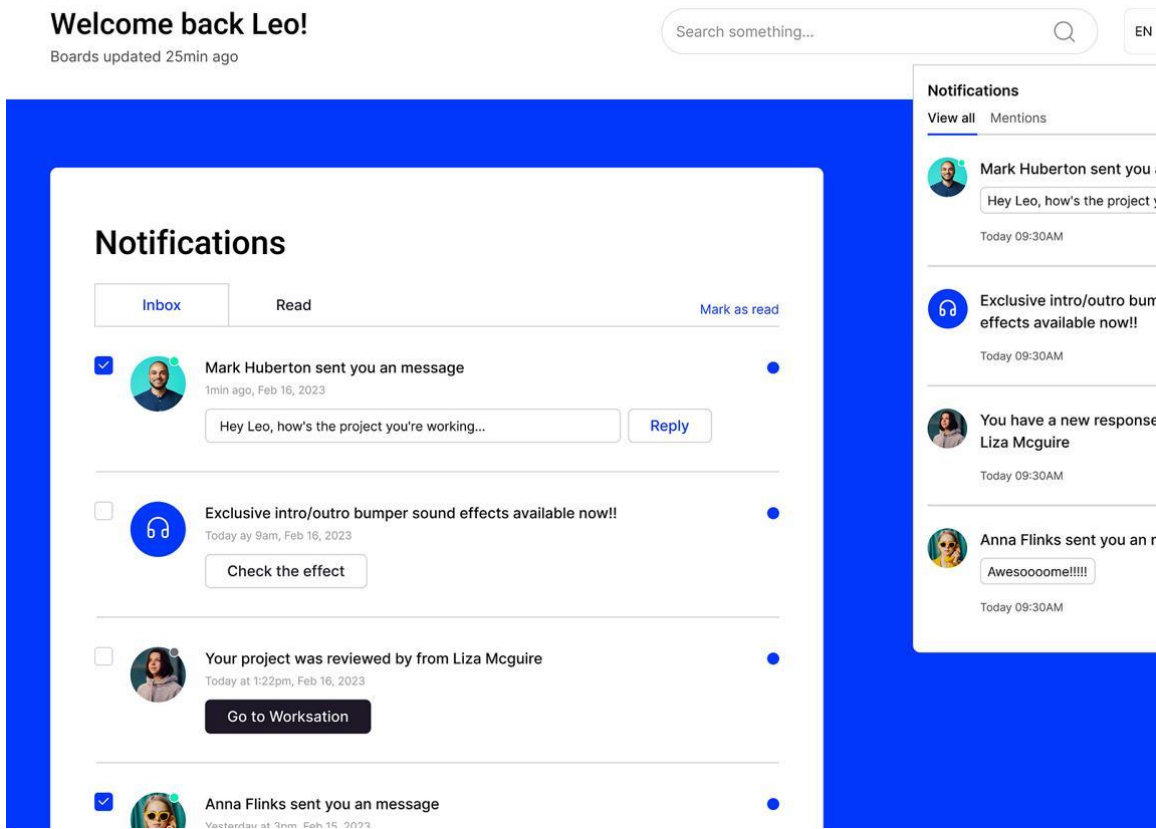

Figure 8: Notification Center

Description: Add a brief explanation of this screen and paste the corresponding UI image below.

UI Design Principles

- Simple and intuitive interface
- Responsive layout
- Role-based navigation
- Consistent color scheme
- Accessible forms and dashboards

Conclusion

The UI wireframes provide a blueprint for the final implementation of the Lab Resource Utilization Platform.
